Created in Barcelona.

1953. The first SEAT rolls off our Barcelona production line and a whole country starts moving. More than 60 years later and we're moving people all over the world.

But Barcelona still inspires us. Its creative spirit runs through our veins. Feeds into every car we produce. (In fact, 50% of the energy we use to make our cars comes direct from Mediterranean sunshine). This is a city that never stops. And neither will we. Why? Because you have places to be.

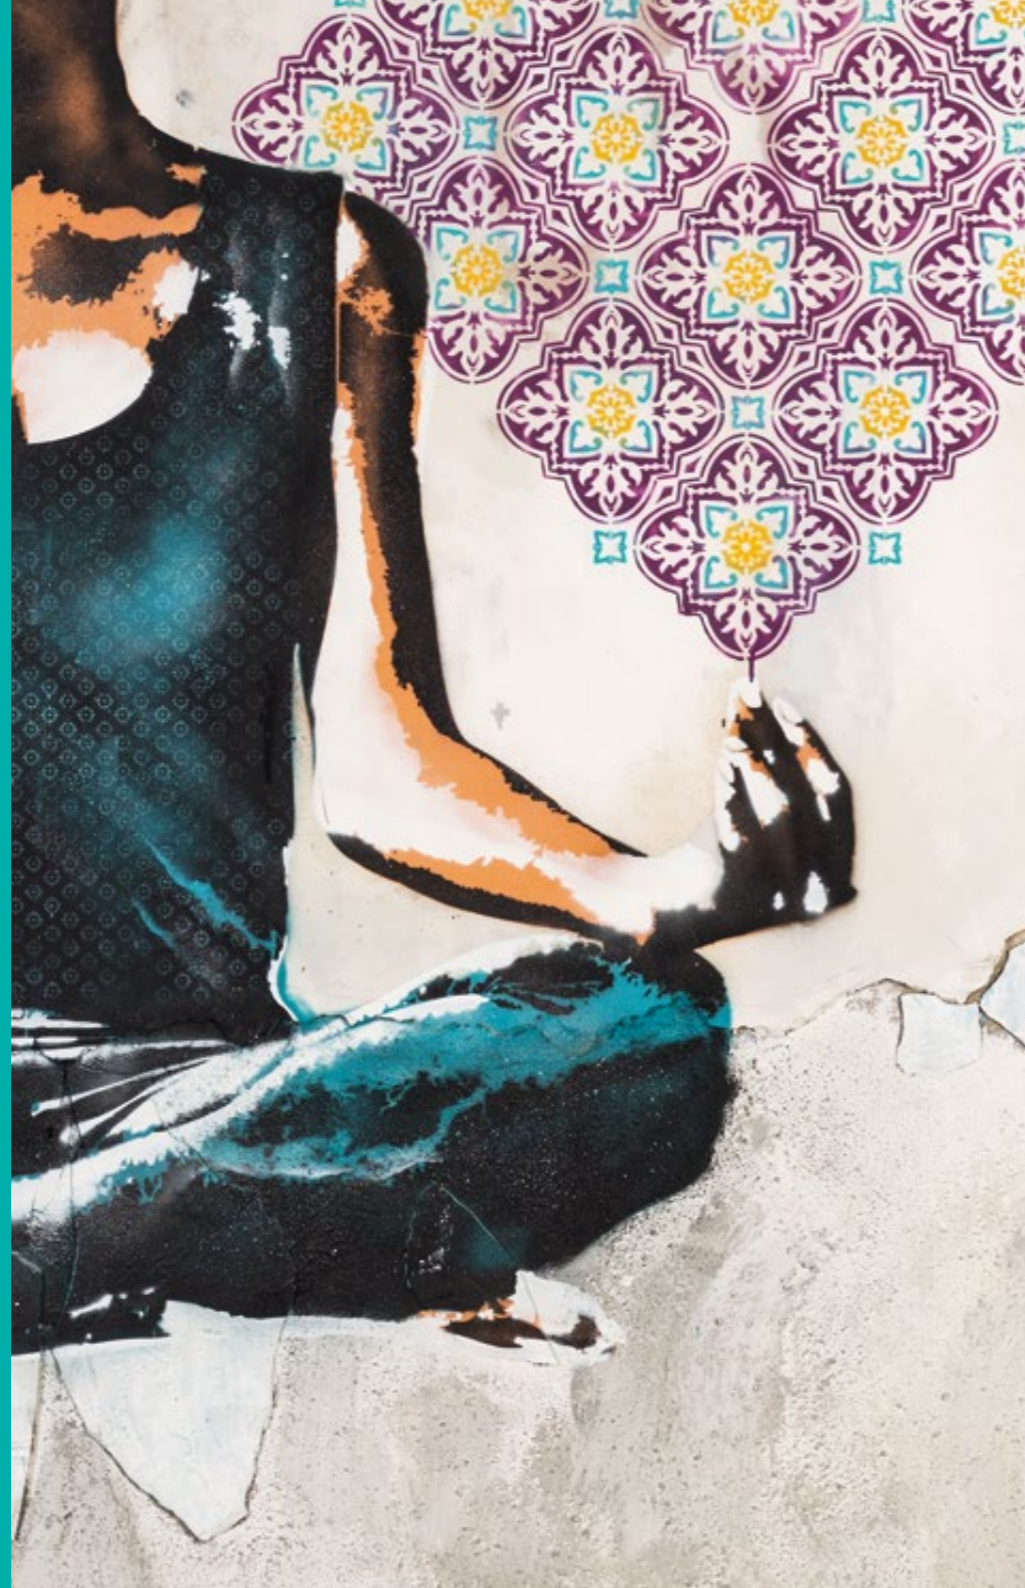

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Easy mobility.

The world is full of possibilities. SEAT makes it easy to take hold of them. Plot your own route. Set your own goals. Keep moving through your ever-changing life. It's what we do.

Because if it doesn't set you free, drive you forward, make things better, what's the point? If it's not easy, it's not mobility.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Your Arona.

Nothing ever grew from a comfort zone.

Fresh, modern good looks and aerodynamic performance. The SEAT Arona has it all, with ultra-defined blisters and dynamic lines. Compact. Fearless. Designed to be free. City car agility meets SUV style and substance. Tech that puts your world at your fingertips. More space to play with. This is a new vision. As independent as you are.

Exterior design

X marks the spot.

Throw away the map. You know where you're going.
With class. Pushing the boundaries. Blurring the lines.
And when you get there, you'll know why.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Exterior design

Want more. Get more.

How do you want it? That's how you'll get it. The SEAT Arona lets you pick what's right for you. Orange on grey? Done. Black on red? Naturally. Whatever you choose, the SEAT Arona lets you express yourself, your way.

Exterior design

How's the view from up there?

Stand out, for all the right reasons. The SEAT Arona commands the road with its hot stamped, chrome detailed front grill and higher driving position. From here, it's easy to plan the next move.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Exterior design

Turn heads. Conquer hearts.

From the custom 18" Alloy Wheels to its blistering lines, the SEAT Arona says it all, without saying a word. Because style isn't just about looking good. It's about making it look easy.

Exterior design

See further. Go further.

Brighter than the rest. The SEAT Arona is equipped with the latest full LED headlights and rear LED pilots. So you've got the power, and the vision, to go the distance.

Interior design

In your space, it's limitless.

When you've got big plans, you need plenty of room. Stretch out. Enjoy a quality of finish that feels just right. And take command of your drive. It's all right where you want it.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Options. Multiplied.

We could all use that extra space. So the SEAT Arona gives you more. With up to 400 litres of room in the boot, you can take what you want. And what they want. So everyone can do their thing.

Our global range of cars and product specifications varies from country to country. Please, visit your local SEAT website to know more about the product offer available for you.

Technology

Everywhere. All the time.

Be where you need to be, without being there at all. The SEAT Arona's Wireless Charger and GSM Amplifier mean everything's charged, at full signal and ready to go. Full Link technology adds total connectivity and control.

Safety

See them coming. Easily.

Not everyone pulls the smartest moves. Sometimes, they'll come out of nowhere. So the SEAT Arona's there for you, alerting you to anything in your blind spot that presents a hazard. Let them do their thing. You can do yours.

Your way.

The moon is not enough.

Want the best? You have it. Want it even better? Make it your own. The SEAT Arona is customisable to the very last detail. From every colour. Dial to dial.

Need more tech? Get loaded. Want more style? You've got it. Because it's not about being told what to do. It's about doing your thing. Exactly how you like it.

See the world

Ecological driving

ECO tips: recommendations for a more efficient and ecological driving experience.

ECO trainer: helps the driver to enjoy a more efficient driving experience, pointing out any unnecessary accelerating and braking.

Air quality

Diesel engines integrate the Selective Catalytic Reduction (SCR) system to minimise nitrogen oxides emissions.

Renewable materials

Presence of renewable materials like cotton, natural rubber and cellulose/paper in different parts of the vehicle.

Engines

A modular configuration facilitates reducing the number of components and assembly parts, lowering the weight of the chassis.

Engine TGI. Combine petrol and compressed natural gas (CNG), saving up to 30% compared to a petrol engine only. Reduce CO₂ emissions and improve the air quality.

Lighting

Integrating Full LED headlights and LED daytime running lights reduces electricity consumption and increases the headlights' life expectancy output.

Factory

Between 2010 and 2018, CO₂ emissions for every car manufactured by SEAT have decreased by 54%.

The average energy consumption of all our cars has also fallen by 19%. A 31% decrease in water consumption and a 28% reduction in waste per car produced.

Air conditioning

Using the new R1234YF coolant reduces global warming potential by 99.7%.

Acoustics

Full compliance with the new noise regulations thanks to improvements introduced to the exhaust pipes and to the acoustic package.

Using cleaning products free of volatile organic compounds (VOCs) has improved the internal cleaning process of the robots used in the paint workshop.

Fuel tank

Improvements made to the system help reduce the weight and volume of a full tank, without losing autonomy.

Tyres

Tyres with a low rolling resistance.
